

SMART TAG

RTSS Smart Chain Tags are designed to fulfill a number of shipment tracking roles from the basic single task to reusable rechargeable roles.

Data Retrieval modes designed to allow use of most Smart Phones using NFC Tag Technology or Optional Blue Tooth Interfaces.

-  Rechargeable or Single Use (Magnetic Disable)
-  Temperature Sensor with Maximum Minimum Alarm Threshold
-  Logging options for 26,000 Full Sensor Events
-  Real Time Clock Calendar
-  Ambient Light Sensor
-  IP68 Water Submersible (ex Units with Humidity Sensors)

Unit Sensors
Temperature: -40 °C to +120 °C
Temperature Accuracy: ± 0.5 °C, 15 to +40 °C
Humidity accuracy: ± 3.5% rH, 20 to +80% rH
Absolute Pressure: 260 to 1260 hPa
Ambient Light Sensor: Level Alarm
Motion: Orientation , Drop Detect

Options
Use: Single Reusable
Interface: NFC Bluetooth (Rechargeable Version)
Sensor: Temp Temp , Ambient Light Temp , Humidity , Absolute Pressure Temp , Ambient Light , Motion
